

Report of Watton Society's September Meeting

Watton Society's evening of "Grim Tales and Dark Deeds in Norfolk" by Neil Storey began with a

description of the various iron work used in restraining people for what ever reason, sometimes very

little. How the hangmans rope was worked, while looking at one. This was followed by stories of

crimes committed, also of course the witch finder general well known in Norfolk. An exciting

evening for all who attended.

Our next meeting is on Wednesday 18th October at 7.45pm at Watton Christian Community Centre.

It will be the AGM followed by a speaker from the Project Linus, Norfolk. Talking about their

history, what they do and how they do it. All are welcome. Look out for the posters.
